Maximum Marks	2 Marks

Customer Journey Map

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

Phase of Journey	Stage 1: Discovery & Sign-up	Stage 2: Document Creation	Stage 3: Review, Download & Follow-up
Actions <i>What does the customer do?</i>	- Searches online for an easy way to draft legal papers - Visits the Legal Ease website or app - Registers / logs in with email or phone	- Selects a document type (rental agreement, NDA, affidavit, will) - Answers guided questions about parties, dates and terms - Chooses language and clause options	- Reviews the AI-generated draft - Edits or regenerates unclear clauses - Downloads the document as PDF/DOCX and shares or e-signs it
Touchpoint <i>What part of the service do they interact with?</i>	- Search engine / social media - Landing page - Sign-up and login screen	- Template library - Smart question form (web / mobile) - AI drafting engine	- Document preview and editor - Download / e-sign module - Email and SMS notifications, support chat
Customer Thought <i>What is the customer thinking?</i>	"Lawyers are costly and slow for simple documents." "Can I trust an AI with legal drafting?" "Is my personal data safe?"	"The questions are simple and easy to follow." "Will it cover every clause I need?" "I hope it is valid under Indian law."	"This looks professional and complete." "I want a lawyer to verify it for safety." "I will use this again for my next document."

Customer Feeling <i>What is the customer feeling?</i>	• Curious but doubtful • Hopeful of saving time and money	• Confident and engaged • Slight worry about legal accuracy	• Relieved and satisfied • Trusting; likely to recommend
Process Ownership <i>Who is in the lead on this?</i>	Marketing & Product Team (UX / onboarding)	AI / Backend Team (document generation engine)	Legal Review & Customer Support Team
Opportunities <i>How can we improve this stage?</i>	• Offer a short demo and clear privacy promise • Allow Google / OTP quick login • Collect user feedback after download to improve templates	• Add plain-language hints and examples for each question • Support regional languages such as Tamil and Hindi • Collect user feedback after download to improve templates	• Offer optional lawyer review and e-sign • Send reminders for renewals and expiry dates • Collect user feedback after download to improve templates
