

## Project Demo Planning

|                      |                                                 |
|----------------------|-------------------------------------------------|
| <b>Date</b>          | 3 October 2026                                  |
| <b>Team ID</b>       | SWTID-2026-6275 (Team Cipher)                   |
| <b>Project Name</b>  | Legal Ease: AI-Powered Legal Document Generator |
| <b>Maximum Marks</b> | 1 Mark                                          |

### Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

| S.No | Demo Section                           | Description                                                                           | Duration (mins) | Responsible Member |
|------|----------------------------------------|---------------------------------------------------------------------------------------|-----------------|--------------------|
| 1    | Introduction & Problem Statement       | Explain the difficulty of getting legal documents drafted and the need for Legal Ease | 2               | U. Harikrishnan    |
| 2    | Solution Overview & Architecture       | Present the AI-based approach, technology stack and system architecture               | 3               | B. Sri Harani Devi |
| 3    | Registration & Document Selection      | Show login, dashboard and choosing the type of legal document                         | 2               | N. Manikandan      |
| 4    | AI Document Generation (Live)          | Fill the guided form and generate a legal document live using AI                      | 4               | K. Kesavan         |
| 5    | Preview, Edit & Export                 | Review the generated draft, make edits and download it as PDF/Word                    | 2               | N. Manikandan      |
| 6    | Scalability, Future Scope & Conclusion | Summarise limitations, upgrade plan and roadmap; thank the audience                   | 2               | B. Sri Harani Devi |

### Demo Flow Summary:

| Step | Activity                         | Notes                                                                                                |
|------|----------------------------------|------------------------------------------------------------------------------------------------------|
| 1    | Introduction & Problem Statement | Presented by U. Harikrishnan (Section 1); 2 minutes                                                  |
| 2    | Solution Overview                | Presented by B. Sri Harani Devi (Section 2); show architecture diagram; 3 minutes                    |
| 3    | Live Feature Demonstration       | Sections 3 to 5 shown live by N. Manikandan and K. Kesavan; backup screenshots kept ready; 8 minutes |
| 4    | Q&A Session                      | Led by U. Harikrishnan; all members answer questions in their own areas; about 5 minutes             |
