S.No	Communication Type	Frequency	Channel / Tool	Participants	Purpose
1	Team Standup	Daily	WhatsApp Group / In-person	All 4 members	Share daily progress, plan the day's tasks and unblock teammates quickly
2	Progress Update	Weekly	Google Meet / Google Docs	All 4 members	Review completed modules (UI, AI generation, export) and update the progress tracker
3	Issue / Bug Discussion	As Needed	GitHub Issues / WhatsApp	Team Leader + concerned member	Report, assign and resolve bugs such as wrong clause output or export errors
4	Stakeholder Review	Bi-Weekly	Google Meet / Email	Team + Project Mentor	Present the current build, collect feedback and confirm next milestones
5	Final Demo Rehearsal	Once	In-person / Screen share	All 4 members	Rehearse demo flow, timing and roles; test the system end-to-end
6	Documentation Sync	As Needed	Google Drive / WhatsApp	All 4 members	Keep project documents, prompts and templates consistent and up to date

Communication Challenges & Resolutions:

S.No	Challenge Faced	Resolution / Action Taken
1	Different class timings made it hard for all four members to meet together	Fixed a daily 15-minute online stand-up slot and recorded decisions in the WhatsApp group for anyone who missed it
2	Code changes by multiple members caused version conflicts and overwritten work	Moved the code to a shared GitHub repository with separate feature branches and review by the Team Leader before merging
3	Unclear expectations on legal templates and AI prompt wording led to rework	Agreed on a shared list of document types and prompt formats in one document and confirmed changes with the mentor in stakeholder reviews
